

## Happy hypnotics

What do you do when the sun goes down?  
What makes u go to sleep with your makeup on?  
Who do turn to when u're lonely?  
We need another go when the night is young

Some happy hypnotics can do u well  
When all of your money has gone to hell  
We pass by some locals  
And some say hi  
The others just stare and we don't know why

What if I can't get high on you?  
Would u be scared if u took it too?  
We need some more ways to forget  
Some things we haven't tasted yet

Some happy hypnotics can do u well  
When all of your money has gone to hell  
We pass by some locals  
And some say hi  
The others just stare and we don't know why

Happy ever after all  
Under the great fire ball  
What do you expect to see  
Who do you expect to be?

Some happy hypnotics can do u well  
When all of your money has gone to hell  
We pass by some locals  
And some say hi  
The others just stare and we don't know why
