

GIRL, KISS, CRY

Out of sight inside my head
Makes me wanna wanna want it bad
Sunroof, black Corvette
What I want is what I cannot get
Nooooooooo!

I heard her moan thru the phone
Cheap trick long distance call
Sister rebell lets it drop
Pop goes the line and the line goes pop

Weezo why
Girl, kiss, cry

I watched her dance what a dancer was she
I saw her aim that red sock at me
Like a rocket in a wet embrace
It curled around my neck to explode in my face
Boom

I read subtitles on your teeth
Flashing in the dark too dark to breathe
Welcome to my enemy
Come on now devil now walk with me

Weezo why
Girl, kiss, cry
