

(We can't leave) Until They Have Played Our Song

I know I've heard it here before
It's been a while but
They'd better still have it in store
If they got style

I asked the DJ
he says it's OK
But he still has some other songs to play

We can't leave
Before the have played our song
Tonight

And all the wine we drank tonight
Ran down like water
And we still don't want to call it a night
Though we know we ought to

Let us wait for another song
Or let's just stay till they put us on

We can't leave
Before the have played our song
Tonight

Let us wait for another song
Or let's just stay till they put us on

We can't leave
Before the have played our song
Tonight
