

## Coming Over You

U wanna be my morning muse?  
U wanna brighten up my day?  
Go, say the words you know I cannot help but follow  
They start to sound hollow

There's a dog inside my brain  
There's a dog inside my brain  
That makes me jump into my shoes and start it over  
I'm coming over  
As soon as I m sober

I'm coming over to you  
I'm coming over you

I wanna be your morning muse  
Yeah, I wanna be your muse

And it's alright with me if u will love me later  
I'll be your waiter  
I got your data

I'm coming over to you  
I'm coming over you

Where's your VJ hiding?
