

I Bet It Rains

Go, morning sun
Shine on my face, shine in my eyes
And through my veins

The early bird
Can kiss my ass, it's telling lies
I bet it rains
I bet it rains

You want to meet me in the park
And maybe jump into the lake
Got no complaints

Don't let the blue sky screw your mind
Don't let your weather app undress yourself
I bet it rains
I bet it rains
I bet it rains

Even if the sun stands high
And you don't see a single cloud in the sky
And you know the weather man he's talking crap
He's three times your age, don't grow up it's a trap

Even when they say
That the odds are one to ten
I just bet it rains but I did not say when
I bet it rains
I bet it rains
I bet it rains
