

Where you wanna be

You can't get those chemicals out of your mind
Put on a band aid and rub it tight
Those dark eyed circles kind of suit you fine
But I wouldn't throw that into your unhappy face

Take off your shoes and float down the Nile
Not all the way, just as long as you like it
And let the sun crawl over your bones and
Just be aware, this one's not going south to

Where you wanna be

Now let the pills wish you a very good night
Ten hours sleep and you wake up in time
To go wherever you wanted to go
Don't take the bus when you don't know where it's leaving

Take off your shoes and float down the Nile
The dusty road it has been used too often
And let the sun crawl over your bones and
Just be aware, this one's not going south to

Where you wanna be
To where you wanna be
Where you wanna be
