

Dirty Little Hole

Like the smell of our cell, like to see it wasted
Strip with me, share your skin with me, I like to taste it

We share a dirty little hole

Come down to the ground. Would u like to mess around?
We stay homebound, careful not to make a sound

We share a dirty little hole

And we can't break out

Homestead, cigarette, ashtray on the doormat
I want to be with you, but use another format
Hold your breath, go zen, wanna save some oxygen
We can' really move...

We share a dirty little hole
