

I Leave A Light On (for you)

I promise I...

I'll leave some coffee in the fridge for you
And I can spare a cigarette or two or three
And leave the lighter on the chair

How I wish you were here
But I don't know if I wish you would stay
If I could bare to see you
Every night and day
Or if it's easier to say....

That I leave a light on for you
I leave a light on for you
I leave a light on for you

So you thought
I wouldn't notice that you cut your hair
Give me a minute that we both can share and I
Will tell you more than this

You booked ten minutes of my dreams tonite
And I retained a spot in my heart or two
This is the least that I can do for you and me
And find a safe place for the key

I leave a light on for you
I leave a light on for you
I leave a light on for you
