

Basement days

Hey girl, your eyes say that you wanna
Hey girls, your nose says that you wanna
Look for a darker location
A spot where we can hide in the night
Cause we always shine in the bright

Back to basement days
Back in the basement days
We never saw the sun back in the basement days
We walked on all fours back in the basement days
Back to basement days
Back in the basement days

Hey boy, your smile says that you wanna
Hey boy, your voice rings like you want me
To get that paraphernalia
To write some glowing stripes in the black
Some notes that we can trace back

Back to basement days
Back in the basement days
We never saw the sun back in the basement days
We walked on all fours back in the basement days
Back to basement days
Back in the basement days

Time to roll the blinds down cause the sun might soon peep trough
Grab the emergency toast, push a movie in and sleep
Get some sleep

Back to basement days
Back in the basement days
